“Add a quote that captures your *mission statement*.

Announce the ***impact you want to achieve and who you aim to help.***

Show where your *company is heading*, the ultimate goal.”

Tonima Nasir

Introduction

- System to manage employee records efficiently using GUI and database.

Problem Statement

- Manual systems are slow, error-prone, and lack automation.

```
245         hg = "ff6904", command=search_employee).pack(side=tk.LEFT, padx=5)
246
247     tk.Button(search_frame, text="RESET", font=('Arial', 18, "bold"),
248             hg = "ff6904", command=reset_search).pack(side=tk.LEFT, padx=5)
249
250     # ----- FORM FRAME -----
251     form_frame = tk.Frame(root, bg = "#2a7c2", bd=5, relief=tk.RIDGE)
252     form_frame.place(x=38, y=78, width=390, height=458)
253
254     lbl_font = ("Arial", 12, "bold")
255     entry_font = ("Arial", 12)
256
257     tk.Label(form_frame, text="Name", bg = "#2a7c2", font=lbl_font).grid(row=0, column=0, padx=18, pady=15, sticky="w")
258     tk.Entry(form_frame, textvariable=name, font=entry_font, width=22).grid(row=0, column=1)
259
260     tk.Label(form_frame, text="Email", bg = "#2a7c2", font=lbl_font).grid(row=1, column=0, padx=18, pady=15, sticky="w")
261     tk.Entry(form_frame, textvariable=email, font=entry_font, width=22).grid(row=1, column=1)
262
263     tk.Label(form_frame, text="Phone", bg = "#2a7c2", font=lbl_font).grid(row=2, column=0, padx=18, pady=15, sticky="w")
264     tk.Entry(form_frame, textvariable=phone, font=entry_font, width=22).grid(row=2, column=1)
265
266     tk.Label(form_frame, text="Department", bg = "#2a7c2", font=lbl_font).grid(row=3, column=0, padx=18, pady=15, sticky="w")
267     tk.Entry(form_frame, textvariable=department, font=entry_font, width=22).grid(row=3, column=1)
268
269     tk.Label(form_frame, text="Salary", bg = "#2a7c2", font=lbl_font).grid(row=4, column=0, padx=18, pady=15, sticky="w")
270     tk.Entry(form_frame, textvariable=salary, font=entry_font, width=22).grid(row=4, column=1)
271
272
```

Objectives

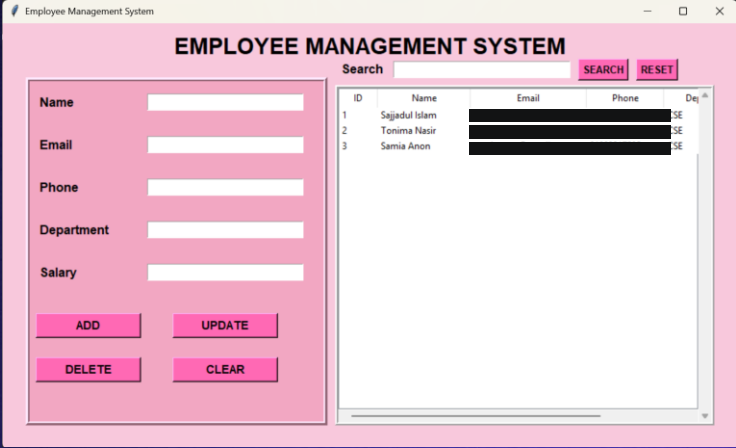

- - User-friendly GUI
- - CRUD operations
- - Database storage
- - Login system

Technology Used

- Python
- Tkinter
- MySQL
- VS Code

System Features

- Add, Update, Delete, Search Employees
- Login System
- Interactive Table

The screenshot displays the 'EMPLOYEE MANAGEMENT SYSTEM' interface. On the left, there is a form with input fields for Name, Email, Phone, Department, and Salary. Below these fields are four buttons: ADD, UPDATE, DELETE, and CLEAR. On the right, there is a search bar with 'SEARCH' and 'RESET' buttons. Below the search bar is a table with columns: ID, Name, Email, Phone, and Dept. The table contains three rows of employee data.

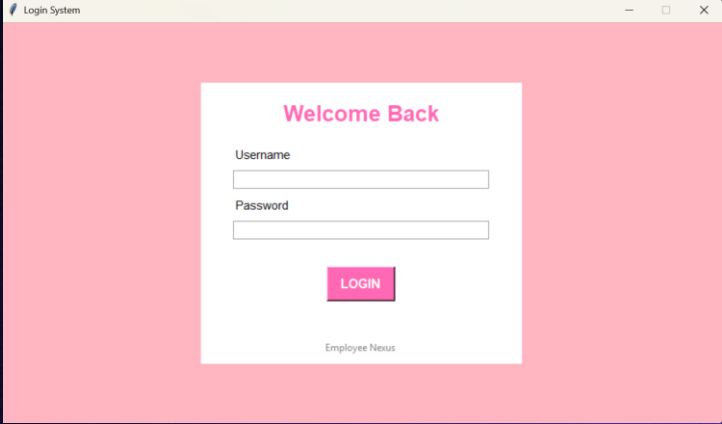

ID	Name	Email	Phone	Dept
1	Sajadul Islam			SE
2	Tonima Nasir			SE
3	Samia Anon			SE

Database

- Table: employees
- Fields: id, name, email, phone, department, salary

User Manual

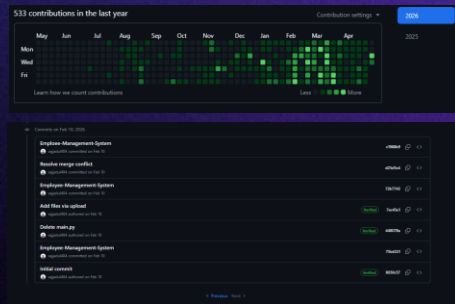

- Login using sajutonu/2508

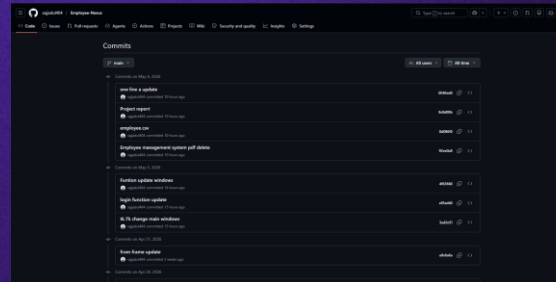

A screenshot of a web application window titled "Login System". The window has a light pink background. In the center, there is a white rectangular box containing the login form. At the top of this box, the text "Welcome Back" is displayed in a pink font. Below this, there are two input fields: "Username" and "Password", each with a corresponding text label above it. A pink "LOGIN" button is positioned below the password field. At the bottom of the white box, the text "Employee Nexus" is visible in a small, dark font. The window's title bar includes standard minimize, maximize, and close buttons.

Conclusion

- System simplifies employee data handling and improves efficiency.
